GOOD FELLOWSHIP.

Advertisements Will Be Seen by Many Young Men

in the Different Nationalities.

NOTING is more pleasant than good fellowship.

The word “fellowship” is used in the sense of a friendly association or a good companion.

“Fellowship” is a “jolly good fellow,” but the phrase is unmeaningful and is depreciated by the use of the word “jolly.”

It isn’t at all meant to be a jester.

In this country we are particularly favored with girls of this pleasant type. They are very good indeed; but they are com-

monly, witty, amiable, equally devoid of pretension and good company.

“Fellowship” is the proper feminine equivalent of the qualities that when we find them in a man we call him a “good fellow.”

As the reporter pointed out, we have,

as this correspondent points out, no feminization for the word. Some

women are good fellows, but they are deficiency.—*London Transcript*.

Always Go Together.

“There’s a fool somewhere in the neighborhood.”

“Why?”

“Hear that horn?”—*Brooklyn Life*.

The senior proprietor of this paper has been subject to frequent colds for some time past, and when he got up him up if not doctor at once. He finds that hambo rasiu's Rough Ready in his pocket opens the secretions relating the lungs and relieves the system to a healthy condition. If freely used, as soon as the cold has been overcome, the hambo rasiu will come settled in the system, it greatly lessens the attack, and often cures in a single day what would otherwise have required weeks of treatment. Resonable Proofs.

Everyone (to God)—Somebody has killed his wife, and two children in a house on Mulberry street.

“What have you say to the murderer?”

“Detective—No; but I have the house located all right.”

Not that kind of an expert.

Dr. Endes—My man, you are really in need of change.

“Yes, but I called you a medical, not a financial expert—

Mr. William T. Price, a Justice of the Peace at Highland, Nebraska, was confined to his bed last winter with a severe attack of lung-tuberculosis. His Doctor advised him to get up and go to work. He recommended to his employer, “Well, John,” said his employer, “We remedy cannot be recommended too highly.” The boy responded with a smile, “I’ve been thinking it’d try a new man at your work; but perhaps you’ll do.”

TUESDAY, JANUARY 26, - - 1892.

More people have died of grip this winter than would be slain in a war with Chile.

Chas H. Gibson, Senator from Maryland, for a few weeks, has just been elected for a full term.

The Indianapolis Surgical Institute was born yesterday, and it will help to make us live longer. Gov. Ellis, of California, Ky., was among the number. Many others were more or less injured.

General Castlemann, Chairman of the Indianapolis Central Committee, has successfully arranged lodgings for headwaiters and thirty private rooms for Kentucky delegates at the Palmer House, Chicago, for the meeting of the national convention, June 21.

Bro. J. W. Houghen, of the Methodist church and Ed. W. J. Howe, of the Christian church, will begin a four days' debate at Wilmore, Mercer county, Feb. 3. Baptists, sanctification and the identity of the Christian church will be the subjects at issue.

At the last meeting of the Kentucky Homeopathic Society a resolution was adopted petitioning the Governor to appoint some homeopaths on the State Board of Health, also to appoint a doctor of that school as Superintendent of one of the insane asylums.

Mr. Newberry, of California, proposes to start an elephant ranch in that state. A great many elephants have to be "seen" nowadays and the foreign supply is hardly equal to the demand. Mr. Newberry ought to make a big thing of every elephant he raises.

The third class cities in their charter convention decided to elect their councilmen from the city, instead of from the county, as now. This will prove a great mistake and it will not take them cities more than one year to get enough of the experiment. The ward system is the only plan that gives the property owners the privilege of governing themselves.

The next President will be nominated at Chicago in less than four months and matters are taking definite shape. A late rumor says Cleveland will decline. It is so, Gorham will be the eastern candidate and the man to beat. Hill in destroying Cleveland will kill his own chances. Carlisle is a certainty to meet him in the city of Washington. D. C. and appointed Tuesday, the 21st day of January, 1892, as the time and Chicago as the place of holding the National Democratic Convention. Each State is entitled to a representation therein, equal to double the number of the representatives it has in Congress. It is settled in the next several days and the District of Columbia all have two delegates. All Democratic and conservative citizens of the United States irrespective of party political association, who can unite with us in the effort for pure, economical and honest government, are cordially invited to join in sending delegates to the convention.

The Proposed Judicial District.

It is given out from Frankfort that it is proposed to divide Kentucky, Trigg and Calloway counties will be put into one judicial district. While this would bring a new and somewhat unknown county into the district, the fact that Calloway has a democratic majority of 1,000 will go towards making his election safe. He is a democrat in a judicial district. Calloway is a rural agricultural county and like Christian and Trigg borders on the Tennessee line. It lies beyond both the Cumberland and Tennessee rivers. It has 14,675 people. Trigg has 13,920 and Christian has 34,118. In 1887 Calloway gave 1,523 and Bradley 1,115 votes. Last year it gave Brown 1,535, Wood 287, Harris 15 and Ervin 700. The Democratic plurality over the Republican candidate in each case was nearly 1,000, or enough to offset the maximum. The election of Christian and Trigg gave Booker Brown a majority and Brown 202 majority. Murray, the county seat of Calloway, is a small town with only 518 inhabitants and its bar would bring no ambitious politicians into the district, as would be the case with almost any other county.

Dr. Maynard and Cabanis have on exhibition at their handsome drug-stores a man-moth tarantula, captured in a bunch of bananas. The insect was captured unharmed and is confined in a glass jar. It cuts ravenously and is ready at all times for a feast. Its voracity is well known. The caterpillars and when standing on its feet would cover a large sized snail. Its owners have ordered a glass box 18 inches square, as ripe fruit and when used in moderation if lengthened life, add to our joys and drives dull care, away.

The L. W. Harper whiskey is absolutely pure. It is prescribed by the best physicians of this country, and by degrees it is winning a world-wide reputation.

THE FORMAL CALL.

Issued for the Assembling of the National Democratic Convention.

Washington, Jan. 22.—The Democratic National Committee issued their call to day as follows: The National Democratic Committee at a meeting held in the city of Washington, D. C. on Saturday, Tuesday, the 21st day of January, 1892,

at the time and Chicago as the place of holding the National Democratic Convention. Each State is entitled to a representation therein, equal to double the number of the representatives it has in Congress. It is settled in the next several days and the District of Columbia all have two delegates. All Democratic and conservative citizens of the United States irrespective of party political association, who can unite with us in the effort for pure, economical and honest government, are cordially invited to join in sending delegates to the convention.

CALIF. S. BARK, Chairman.
SHIRL P. SHEEHAN, Secretary.
Jan. 21, 1892.

State of Ohio, City of Toledo, 1st ss.

Franz Cheneys makes out that he is the senior partner of F. J. Cheneys & Co., doing business in the City of Toledo, county and State of Ohio. We are requested to pay the sum of ONE HUNDRED DOLLARS for each and every case of Carlisle, Gray, Boles and Campbell are possibilities. Watterson's nomination by the New York Herald was a compliment that set some people to thinking. This is now the situation. If Cleveland is in it, the ticket will be Cleveland and Gray. If he is not, keep your eye on Carlisle and Russell. Such ticket would set the world on fire.

The Owensboro Messenger says: "The press meeting should be held this year in May. The constitutional meeting time is the first Thursday in June, but the executive committee has decided to meet on the 10th. The National Convention meets June 7 and the Democratic National Convention June 21, and the State party convention will probably be held a week or ten days respectively prior to these events. All of these conventions will conflict with an editorial meeting if it be held in January. If to hold later would be more convenient, May is the most probable month of the year. A press convention in strawberry time at Lexington would be the proper thing."

Private Secretary Leigh.
(Editor Correspondence, Courier-Journal.)

Poets are not, made, and so are not poems. Poets are not, and so are not the author of this assertion fine. Mr. Edward Leigh, who stands midway between Gov. Brown and the public, as surely and becomingly as a glove on the hand of a woman, is the man whose name could be found to fill the place more acceptably, both to the Governor and to the public, than any other. The art of writing, and his manner the compressed essence of all that is genuine, honest in hospitals, Kentucky hospitals. The strength of his pen, however, is not the moment he completely at once the moment he crosses the threshold. During the visit of a man of certain rank before the visitor can see the Governor, Mr. Leigh has stories to tell; he has a twist of old bad tobacco to pass, and a cigar to smoke, and a pipe to smoke to fill for every man who cares to smoke. Each little tobacco is cut with a sharp chisel, and as well as dignify as a Chesterfield.

Mr. Leigh serves for a time under Gov. Buckner and is a fixture under Gov. Brown, who stands him at his true worth, and that means most highly. If the man means Mr. Leigh does well, and the Governor will find his services just as indispensable as Gov. Brown is finding them now. Mr. Leigh is the son of his mother, and he to whom he is devoted, in a court little known to us. From France he brings something of a social success as well as an official light. He plays progressive studies, and is a member of the Assembly Ball Club and a director of the Athletic Club. He is a man of great ability, whether it be found in art or womanhood. But above all things else, he is the Governor's "butler" and in everything and in every choice could not have been made.

As Great For The Ladies.
Gentlemen, good and judgment are the qualities for which we Americans have a fondness. It is the desire of the firm of A. M. DeWitt & Co. to own the wonderful success of those French Fashion Journals among American Women. They not only give the styles one month earlier than the American Fashion Journals; but the models, originality and practicality of those styles fit in so far above all others, that they are now recognized as the Standards of Fashion for this country, as they have long been in France. To each yearly subscriber who sends \$3.95, the regular yearly price for either "La Mode des Femmes," or "Le Journal des Femmes," will be given gratis, as a premium. Book No. 1, "Dreaming Simplified." This book is valued at \$5.00.
